

# Create a Econ Snapshot Mobile App for Pakistan Issues

Project Title	Create a Econ Snapshot Mobile App for Pakistan Issues
Project Summary	Create a mobile app that draws information from reliable, open-source data to capture a basic snapshot of the economic situation in Pakistan.
Country	United States
Country/Region of Focus	Pakistan

## Project Description

This mobile app will allow officers to immediately receive specific statistics and information on Pakistan including but not limited to: the current population and annual growth, the currency exchange rate, economic growth, inflation, poverty levels, average salary, Internet and mobile phone penetration, and other readily available economic indicators. The intern(s) will work directly with the Econ Team on the Pakistan Desk to outline, design, and create this mobile app.
